Can crypto.com reverse a transaction?

No, Crypto.com generally cannot reverse a transaction (+1-864-310-5443) once it has been confirmed on the blockchain. This is because cryptocurrency transactions are designed to be immutable and irreversible (+1-864-310-5443) as a core security feature . Always double-check recipient addresses and network details before confirming any transfer .

However, (+1-864-310-5443) there is an important exception for Crypto.com Visa Card transactions. If you made a purchase with your card and the merchant failed to deliver goods, charged an incorrect amount (+1-864-310-5443), or if you spot an unauthorized charge, you can request a chargeback . This dispute must be filed within 120 days directly through the Crypto.com App (+1-864-310-5443). For non-card crypto transfers sent onchain, the transaction remains final .
